

Rural Physician Research Support – Request Form

INTRODUCTION AND PURPOSE

Are you a physician in northern BC? Do you have a research idea or data you would like to explore, but you do not have the time or resources? If you would like support in conducting a research project let us know! Dr. David Snadden – Rural Doctors’ UBC Chair in Rural Health – and experienced researchers at UNBC and UBC want to help facilitate the research ideas of northern BC physicians. If you have an idea or think you could use some help, please complete this form¹ and send to Janna Olynick (contact information on Page 3).

WHAT WE OFFER

- Consultation on research ideas and interests
- Support with the development of research proposals and ethics applications
- Connection to other trained professionals and experienced researchers
- Advice on study design and the application of statistical methods
- Support on collection and analysis of data
- Help with displays/summaries of results through presentations, infographics and publications

RESEARCH QUESTION(S): (What is it you are wanting to explore/what is your focus?)

EXPECTED OUTCOME(S): (What are you hoping to find/be able to show from this research?)

HAVE YOU CONDUCTED A LITERATURE SEARCH/REVIEW YET?

- YES (please skip the next question and proceed to page 2)
- NO

IF “NO”, HAVE YOU THOUGHT ABOUT HOW TO CONDUCT A LITERATURE REVIEW AND WHAT HELP YOU MIGHT NEED?

¹ Form is adapted from the *College of Family Physicians of Canada*

WHICH INSTITUTION(S) WILL YOU BE APPLYING TO FOR ETHICS APPROVAL: (*Northern Health, UNBC, UBC, etc.*). If you are unsure of how to apply for ethics, please let us know what support you would like through this process.

DO YOU HAVE EXPERIENCE CONDUCTING RESEARCH?

- YES, please specify: _____
- NO

HAVE YOU THOUGHT ABOUT STUDY DESIGN AND RESEARCH METHODS?

- YES – Please complete the following section to the best of your ability and submit your form
- NO – Please submit your form and we will guide you through the next section

APPLY THE PICO STANDARD TO YOUR IDEAS

In terms of what is the area of interest in terms of population, patients or the problem area; what is the intervention or investigation you think is most appropriate; are you thinking about comparisons; and what is your sense about the outcome you are seeking:

P	Population/patient/problem	
I	Intervention/investigation	
C	Comparison	
O	Outcome/expected results	

Useful link on the PICO standard: <http://www.scielo.br/pdf/rlae/v15n3/v15n3a23.pdf>

RESEARCH DESIGN - Please specify whether you aim to take a qualitative or quantitative approach to data collection:

WHAT TYPE OF RESEARCH DESIGN ARE YOU CONSIDERING?

Chart review	
Cross-sectional survey	
Cohort study	
Qualitative/Interview	
Other, please specify:	

Please complete and submit this request form to the project Research Associate:

Janna Olynick, MSc
 Research Associate, RNPRP
